CONTENTS OF VOLUME 126

No. 1, November, 1938

PAGE

Duffendack, O. S., Thomson, K. B., Lee, William C., and Koppius, O. G. A method for the quantitative spectrochemical analysis of very small amounts of biological materials for sodium, potassium, calcium, magnesium, and lead 1

Zapp, John A., Jr., and Wilson, D. Wright. Quantitative studies of carnosine and anserine in mammalian muscle. I. A method for the determination of carnosine and anserine 9

Zapp, John A., Jr., and Wilson, D. Wright. Quantitative studies of carnosine and anserine in mammalian muscle. II. The distribution of carnosine and anserine in various muscles of different species 19

Cahill, William M., and Jackson, Richard W. The proof of synthesis and the configurational relationships of abrine 29

Jackson, Richard W., and Cahill, William M. The racemization of amino acids on acetylation with ketene 37

Pucher, George W., Wakeman, Alfred J., and Vickery, Hubert Bradford. The organic acids of rhubarb (*Rheum hybridum*). III. The behavior of the organic acids during culture of excised leaves 43

Consolazio, W. V., and Talbott, John H. Modification of the method of Shohl and Bennett for the determination of potassium in serum and urine 55

Levene, P. A. Structure of desoxyribonucleic acid. On the diphosphoric esters of pyrimidinedesoxyribosides 63

Jacobs, Walter A., and Gould, R. Gordon, Jr. The ergot alkaloids. XVI. Further studies of the synthesis of substances related to lysergic acid 67

Sperry, Warren M., and Stoyanoff, V. A. The enzymatic synthesis and hydrolysis of cholesterol esters in blood serum 77

Seegers, Walter H., Brinkhous, K. M., Smith, H. P., and Warner, E. D. The purification of thrombin 91

Cohen, Philip P., and Stark, Irene E. Hepatic ketogenesis and ketolysis in different species 97

Rabinowitch, L., and Wynne, A. M. Studies on pancreatic lipase. III. The activation of the washed enzyme by blood serum and other substances 109

Tucker, Helen F., and Eckstein, Henry C. The effect of supplementary lysine, methionine, and cystine on the production of fatty livers by high fat diets containing gliadin 117

STANLEY, W. M. Aucuba mosaic virus protein isolated from diseased, excised tomato roots grown *in vitro* 125
ENTENMAN, C., LORENZ, F. W., and CHAIKOFF, I. L. The endocrine control of lipid metabolism in the bird. I. The effects of pregnant mare serum upon the blood and liver lipids of the domestic fowl .. 133
VIRTUE, ROBERT W., and DOSTER-VIRTUE, MILDRED E. Studies on the production of taurocholic acid in the dog. II. Cystamine .. 141
ROUTH, JOSEPH I. The decomposition of cystine in aqueous solution 147
POTTER, V. R., ELVEHJEM, C. A., and HART, E. B. Anemia studies with dogs 155
ANDERSON, ERNEST, HECHTMAN, JOHN, and SEELEY, MILLARD. Hemicelluloses from cottonseed hulls 175
WESTERFELD, W. W., THAYER, SIDNEY A., MACCORQUODALE, D. W., and DOISY, EDWARD A. The ketonic estrogen of sow ovaries 181
WESTERFELD, W. W., MACCORQUODALE, D. W., THAYER, SIDNEY A., and DOISY, EDWARD A. The isolation of theelin from human placenta 195
KLINGHOFFER, KALMEN A. The effect of monoiodoacetic acid on the intestinal absorption of monosaccharides and sodium chloride .. 201
ROBINSON, HOWARD W., PRICE, J. WAIDE, and HOGDEN, CORINNE G. The estimation of albumin and globulin in blood serum. II. Separation of fractions by centrifugation with the angle centrifuge 207
ROBINSON, HOWARD W., PRICE, J. WAIDE, and HOGDEN, CORINNE G. The estimation of albumin and globulin in blood serum. III. The precipitation of globulin at twenty-five degrees by sodium sulfate 213
DU VIGNEAUD, VINCENT, PATTERSON, WILBUR I., and HUNT, MADISON. Opening of the ring of the thiolactone of homocysteine 217
SIDERIS, C. P., YOUNG, H. Y., and KRAUSS, B. H. The distribution of uncombined hexosamine in pineapple plants supplied either with ammonium sulfate or calcium nitrate salts 233
BILLS, CHARLES E., MASSENGALE, O. N., HICKMAN, K. C. D., and GRAY, E. LEB. A new vitamin D in cod liver oil 241
WEIL, LEOPOLD, and RUSSELL, MARY A. Proteolytic activity of plasma during tumor or embryonic growth in rats 245
RIEMENSCHNEIDER, R. W., ELLIS, N. R., and TITUS, HARRY W. The fat acids in the lecithin and glyceride fractions of egg yolk 255
BUTZ, LEWIS W., and HALL, S. R. Some characteristics of the androgenic fractions from bull urine 265
BERNHEIM, FREDERICK, BERNHEIM, MARY L. C., and MICHEL, HARRY O. The effect of pyrrole on the oxidation of amines and the non-natural isomers of certain amino acids 273
SURE, BARNETT, and DEWITT, JAMES B. The oxygen uptake of tissues in vitamin deficiencies 287
MCCULLAGH, D. ROY, and OSBORN, W. O. The male sex hormones of human urine and blood 299

JERVIS, GEORGE A. Metabolic investigations on a case of phenylpyruvic oligophrenia 305
HENDRIX, BYRON M., and DENNIS, JOE. Changes of nitrogen content brought about by denaturation of proteins 315
MICHEL, HARRY O. A study of sulfhemoglobin 323
ROEPKE, RAYMOND R., and BALDES, EDWARD J. A critical study of the thermoelectric method of measuring vapor pressure 349
McSHAN, W. H., and MEYER, ROLAND K. The effect of trypsin and ptyalin preparations on the gonadotropic activity of pituitary extracts 361
TOENNIES, GERRIT, and KOLB, JOSEPH J. Methionine studies. I. The reaction of methionine and other amino acids with mercuric chloride 367
LANFORD, CAROLINE SHERMAN, and SHERMAN, H. C. Further studies of the calcium content of the body as influenced by that of the food 381
JOSEPH, NORMAN R. Heterogeneous equilibrium of protein solutions. II. The interaction of calcium chloride and other salts with proteins, as determined by a new type of calcium amalgam electrode .. 389
JOSEPH, NORMAN R. Purification of crystalloids and colloids by electrodialysis 403
ALMQUIST, H. J., and MECCHI, E. The influence of bile on erosions of the chick gizzard lining 407
MILLER, BENJAMIN F., and MUNTZ, JOHN A. A method for the estimation of ultramicroquantities of lactic acid 413

No. 2, DECEMBER, 1938

SCHMIDT, GERHARD, and LEVENE, P. A. Ribonucleodepolymerase (the Jones-Dubos enzyme) 423
NEURATH, HANS, and SAUM, ARTHUR M. The diffusion of tobacco mosaic virus protein in aqueous solution 435
LAUFFER, MAX A. The viscosity of tobacco mosaic virus protein solutions 443
LORING, HUBERT S. Properties of the latent mosaic virus protein 455
STAMBERG, OLOF E., and BAILEY, C. H. Action of wheat amylases on soluble starch 479
HUBARD, STEPHEN S. Reversible action of oxidized phenols in the deamination of certain amino acids 489
CHANGUS, G. W., CHAIKOFF, I. L., and RUBEN, S. Radioactive phosphorus as an indicator of phospholipid metabolism. IV. The phospholipid metabolism of the brain 493
SELL, HAROLD M., and KREMERS, ROLAND E. The methylation of ursolic acid 501
STODOLA, F. H., LESUK, ALEX, and ANDERSON, R. J. The chemistry of the lipids of tubercle bacilli. LIV. The isolation and properties of mycolic acid 505

WIEGHARD, CHARLOTTE W., and ANDERSON, R. J. The chemistry of the lipids of tubercle bacilli. LV. Studies on the wax fractions of the human tubercle bacillus 515
CASON, JAMES, and ANDERSON, R. J. The chemistry of the lipids of tubercle bacilli. LVI. The wax of the bovine tubercle bacillus 527
STURGES, STUART, and KNUDSON, ARTHUR. Application of the Schoenheimer-Sperry method to the determination of cholesterol and cholesterol esters in tissues 543
GIBSON, JOHN G., 2ND, and BLOTNER, HARRY. The determination of ethyl alcohol in blood and urine with the photoelectric colorimeter . 551
BREUER, ROSALIE, and MILITZER, WALTER E. A micromethod for the determination of iron in blood 561
MAUGHAN, G. B., EVELYN, KENNETH A., and BROWNE, J. S. L. A method for the quantitative estimation of glucuronic acid and conjugated glucuronides 567
CORRELL, JOHN T., and WISE, E. C. Studies on the relative efficiency of vitamin D from several sources. I. Influence of vitamin D of different origins on bone ash and body weight of the chicken .. 573
CORRELL, JOHN T., and WISE, E. C. Studies on the relative efficiency of vitamin D from several sources. II. Influence of vitamin D of different origins on the serum phosphatase of the chicken 581
STEINITZ, KURT. A colorimetric method for the determination of inulin in blood plasma and urine 589
VENNING, ELEANOR HILL. Further studies on the estimation of small amounts of sodium pregnanediol glucuronidate in urine 595
STIEHLER, ROBERT D., and FLEXNER, LOUIS B. A mechanism of secretion in the chorioid plexus. The conversion of oxidation-reduction energy into work 603
FLEXNER, LOUIS B., and STIEHLER, ROBERT D. Biochemical changes associated with the onset of secretion in the fetal chorioid plexus. An organization of oxidation-reduction processes 619
CAHILL, WILLIAM M., and JACKSON, RICHARD W. Some observations on hypaphorine: racemization of its ester and properties of other derivatives 627
CATTELL, MCKEEN, and CIVIN, HELEN. The influence of asphyxia and other factors on the serum potassium of cats 633
EVELYN, KENNETH A., MALLOY, HELGA TAIT, and ROSEN, CHARLES. The determination of ascorbic acid in urine with the photoelectric colorimeter 645
EVELYN, KENNETH A., and MALLOY, HELGA TAIT. Microdetermination of oxyhemoglobin, methemoglobin, and sulfhemoglobin in a single sample of blood 655
SCHACHTER, BENJAMIN, and MARRIAN, GUY FREDERIC. The isolation of estrone sulfate from the urine of pregnant mares 663
BIRD, H. R., OLESON, J. J., ELVEHJEM, C. A., and HART, E. B. Effectiveness of chondroitin in preventing gizzard erosion in chicks 671

RUBIN, S. H. The determination of the buffer alkali in cutaneous blood 679
KENDALL, EDWARD C., FLOCK, EUNICE V., BOLLMAN, JESSE L., and MANN, FRANK C. The influence of cortin and sodium chloride on carbohydrate and mineral metabolism in adrenalectomized dogs.. 697
KOHL, MATHIAS F. F. A balance sheet of fat absorption. I. The storage of elaidic acid by the rat over a one day period 709
KOHL, MATHIAS F. F. A balance sheet of fat absorption. II. The storage of elaidic acid by the rat over periods of several days.... 721
KOHL, MATHIAS F. F. A balance sheet of fat absorption. III. The disappearance of elaidic acid from the tissues of the rat 731
HIRSCHMANN, H., and WINTERSTEINER, OSKAR. Isoequilin A..... 737
RAPOPORT, S., and GUEST, GEORGE MARTIN. Changes of organic acid-soluble phosphorus, diphosphoglycerate, adenosinetriphosphate, and inorganic phosphorus in the blood cells of rats during the development and healing of rickets 749
LORENZ, F. W., CHAIKOFF, I. L., and ENTENMAN, C. The endocrine control of lipid metabolism in the bird. II. The effects of estrin on the blood lipids of the immature domestic fowl 763
BESSEY, OTTO A. A method for the determination of small quantities of ascorbic acid and dehydroascorbic acid in turbid and colored solutions in the presence of other reducing substances 771
THANNHAUSER, S. J., SETZ, PAUL, and BENOTTI, JOSEPH. The composition of sphingomyelin from stromata of red blood cells..... 785
INDEX TO VOLUME 126..... 791
